

Thriving Connections

For people who want to transform poverty into stability, Thriving Connections is the multi-generational community building model that gathers diverse people who cultivate intentional relationships across economic class by creating a safe harbor to focus on achieving financial, emotional, mental, physical, social, and spiritual growth. Thriving Connections provides a holistic approach to helping individuals and families captain their ship of life as they achieve their goals, better understand the challenges of poverty, and effect change. This results in everyone feeling empowered with purpose and direction to move forward together.

Housing Choice Opportunities

Housing Choice Vouchers provide vouchers for low-income households so they can seek housing. South Central Community Action Program offers Housing Choice Vouchers in Brown, Monroe, Morgan, and Owen counties within U.S. Housing and Urban Development's (HUD) guidelines.

Agency Mission

The South Central Community Action Program (SCCAP) is a nonprofit organization based in Bloomington, Indiana that has served low-income people for 55 years. Our mission is to provide opportunities for low-income citizens to move toward personal and economic independence. We serve Brown, Monroe, Morgan, and Owen Counties.

SCCAP is proud to offer:

- Early Head Start
- Head Start
- Energy Assistance
- Growing Opportunities
- Housing Choice Opportunities
- Thriving Connections
- Weatherization

Our Programs

Energy Assistance Program

The purpose of the Energy Assistance Program is to help keep members of low-income families safe and healthy, and assist them in achieving energy self-sufficiency and avoiding utility disruptions. We provide assistance with winter energy bills for households in Brown, Monroe, Morgan, and Owen counties. SCCAP's winter assistance program typically begins in November.

Weatherization

Weatherization is the process of increasing the energy efficiency of a home (whether it is a mobile home or a site-built house) and improving health and safety conditions for its occupants. As defined by the Department of Energy's Weatherization Assistance Program (WAP), Weatherization includes a wide variety of energy efficiency measures and serves low income families free of charge (homeowners or tenants alike).

Head Start & Early Head Start

Head Start promotes school readiness of young children from low-income families throughout Monroe County. Head Start and Early Head Start programs support the comprehensive development of children from health care and education to family services for children ages birth to 5, in centers, child care partner locations, and in their own homes. Head Start services include early learning, health, and family well being.

Growing Opportunities

Growing Opportunities is a social business project of SCCAP. We are an urban hydroponic farm that provides fresh produce and nutrition education. We grow produce that is sold to local eateries, supermarkets, hospitals and schools. We also donate a substantial portion of our produce to local food pantries and provide nutrition education videos and workshops to the community. The revenue helps make the project sustainable and increases the availability of fresh, local produce year-round in our community.
